EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Marisa J Zink (Reg. No. 48064) on 24 January 2007.

3. The application has been amended as follows:

*a. Amendment to the Claims :The claims of this application have been amended as presented in the fax received on **24 January 2007** and hereto attached.*

Allowable Subject Matter

4. Claims **1, 3, 5-6, 8-19 and 22-30** are allowed.

5. The following is an examiner's statement of reasons for allowance:

The arts of record used as the basis for the previous rejection, Allavarpu et al. (US Patent 6839748), Avery et al (U.S 20050005259) and Mandal et al. (US 20040117369) do not expressly teach or render obvious the invention as recited in independent **claims 1, 22 and 26.**

a. As to **claim 1**, the arts of record do not expressly teach providing a automatic serialization for events raised by the classes of objects, the events are managed by the framework or synchronization component to allow one or more aspects of the events to occur in a one-time manner and in accordance with a serialized process; and a configuration component that enables the client component to disable or enable automated serialization and synchronization when taken in the context of the claim, as a whole. More over, the art of record does not provide a basis of evidence for asserting a motivation driven from the art or from one knowledgeable in the art, that one of ordinary skill in the art at the time the invention was made would have modified a computer-based event handling system to combine the disclosed limitations as recited in the context of **Claim 1**.

b. As to **Claim 22**, being directed to a method to facilitate event processing with an operating system having substantially the same limitations as **Claim 1**, this claim is allowable for the same reasoning as recited in **Claims 1** above.

c. As to **Claim 26**, being directed to a product having a data structure stored thereon comprising substantially the same limitations as **Claim 1**, this claim is allowable for the same reasoning as recited in **Claim 1** above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
